

SPECIAL REPORT

The Villages Motor Racing Fan Club Travels to Columbia Motorsports Park

As we all know, summers in Florida, especially during the hot days of July and August, can produce some “iffy” weather...weather that is not always suitable to the sport of stock car racing. This was the case on Saturday, August 25, when 60 club members and guests made the trip up Interstate 75 to the town of Ellisville, home of Columbia Motorsports Park, to learn upon arrival that the event had been cancelled and rescheduled for October 13, 2007. The spirited group (pictured below taking a stretch break before heading back down I-75) took it all in stride, and took comfort in the fact that we’d be back home in time to catch most or all of the “Night Race at Bristol” live.

On a more positive note, we can still say that “our car” has never lost in an event where the club has posted a sponsorship! Also, one of the highlights of the trip was the “hot lap” our bus driver posted. We think he would have had a good shot at the pole!

Here's the happy crowd in the bus...

And here's the view of turn four from the backstretch (note the raindrops)...
